[O3-PM-RH-Modeling_Guidance-2018.pdf](#)

Happy Friday SADs –

Attached is the updated “*Modeling Guidance for Demonstrating Air Quality Goals for Ozone, PM_{2.5} and Regional Haze.*” This guidance reflects the EPA's recommendations for how air agencies should conduct air quality modeling and related technical analyses to satisfy model attainment demonstration requirements for the 2015 ozone and 2012 PM_{2.5} NAAQS, as well as for regional haze reasonable progress analyses. This document updates the previous draft version of the modeling guidance, which was released in December 2014.

Please share with your appropriate staff. Have a great weekend!
